Founding member offer

The first 10 companies get MyVaultMate at half price while we earn a track record together.

50% off any plan for 6 months

Office $249.50/mo, then $499/mo · Practice $449.50/mo, then $899/mo · Firm $749.50/mo, then $1,499/mo

10 of 10 founding spots left as of November 13, 2026.

WHAT YOU GET

- The full MyVaultMate detection product on every device your plan covers (Office 10, Practice 30, Firm 250).
- Half price for 6 months on the plan you choose, then that plan's standard monthly price. Founding pricing is billed monthly.
- Scans on the schedule you set, as often as hourly, with reports you can hand to an auditor.
- A direct line to the person who builds it. Your feedback shapes what ships.
- Your 6 months start the day your account goes live, not the day you sign.

WHAT I ASK IN RETURN

- Permission to use your logo.
- A short testimonial, in your own words, once you have results. You approve every word.
- A 20-minute call each quarter.

THE FINE PRINT, PLAINLY

- A card is kept on file to hold your spot and lock your rate. Nothing is charged until your account goes live.
- We email you 30 and 7 days before the rate changes.
- Cancel before the 6 months are up and the founding rate is gone for good. Pause instead and you keep it.
- You can export every finding and report at any time.
- This sheet summarizes the offer. Signing up at cmtechsoftware.io/founding puts it in place, and the Terms of Service apply.
